

Board Matters

The Nominet Board has now reverted to its normal meeting cadence of meeting every two months. However, a short additional meeting was held in December to consider progress in relation to the sale of CyGlass.

This is the report from the November and December 2021 Board meetings.

Strategic Items

CyGlass – the Board reviewed the short list of interested parties engaged in the sale process for CyGlass and agreed the next steps to enable the process to move to the next phase. As this is a commercially sensitive matter further information will be made available when appropriate.

.UK Commercial Support for Registrars – the Board reviewed a paper outlining the commercial support provided to our channel including co-marketing funds, promotions and inclusion in the domain spinner. The Board approved a recommendation that in the interests of greater transparency further information relating to our co-marketing programme would be made available to members.

Public Benefit PDNS for Education – the Board approved a recommendation to continue discussions with government partners for a new PDNS opportunity that has the potential to deliver greater cyber protection to a range of stakeholders in the education sector.

Performance and Finance – the Board reviewed the regular finance and performance reports for the period ending in October 2021.

Governance Items

Board committees – the Board approved the formation of a new Public Benefit Board sub-Committee to provide oversight of Nominet's range of public benefit activities. .UK Registry Advisory Council (UKRAC) – the UKRAC put forward a recommendation to the Board regarding a change to its terms of reference which would allow the council to elect its Chair from one of their own number rather than the automatic appointment of an elected NED from the Nominet Board. The Board approved this request and asked the UKRAC to consider a revision that would require the UKRAC quorum to include the elected NED member. The next UKRAC meeting is scheduled for the 14th January 2022.
